Dear Dave

I just wanted to take the time to say Thank You for a job well done at our facility,

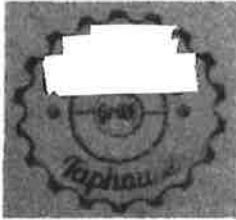

Over the years, we have had issues with wet, slippery floors in our shower areas. these tile floors can get quite wet and your Sure Step product has made a tremendous difference in reducing the slipperiness and creating a safer environment for our staff and members.

It has been a pleasure working with you and I look forward to our continued relationship with your company in the future.

Sincerely

I've contacted Dave to assist us with an anti-slip solution for the entire main area of our bar & restaurant, including four of our bathrooms.

The application of the product was very quick and efficiently done, and did not disrupt our restaurant function.

It made a huge difference in terms of guest experience, in addition to our serving staff's safety when using the wet areas.

After having this Sure Step applied we immediately realized the difference that this product makes with regards to improved traction on wet tile floors.

Dave was a pleasure to deal with, extremely professional, reliable, and helpful. I would recommend him to anyone interested in finding a solution for their concerns & maintenance with slippery floors.

Attention: Dave Assimes

Dear Dave:

Thank you for the amazing job that you did around our pool area. Last year, we had friends over and two of them slipped on the pool deck and one was injured quite badly. We didn't know what we could do, but thankfully we found you and we no longer have to worry.

In addition, thank you for all the other work you did in helping us locate Mode Concrete to help out with our other concrete finishing needs. Gareth is absolutely amazing and together you guys make a great team.

If anyone ever needs a reference on your work, please do not hesitate to give them my contact information.

Best regards,

Hi Dave,

"I am so happy to have found Zero Slip Solutions. They are professional, dependable, well-priced and have a product that really works! I thought we'd have to replace the tiles, so I can't say enough about what a great solution this is. The installation was quick and easy with no down time, there was no change to the tile colour or appearance, and most importantly - our front entrance tiles are no longer slippery. We will definitely recommend Zero Slip Solutions."

Thanks again,
