Hi Dave,

"I am so happy to have found Slip Solutions. They are professional, dependable, well-priced and have a product that really works! I thought we'd have to replace the tiles, so I can't say enough about what a great solution this is. The installation was quick and easy with no down time, there was no change to the tile colour or appearance, and most importantly - our front entrance tiles are no longer slippery. We will definitely recommend Slip Solutions."

Thanks again,
