Bob,

Thank you for treating the tile flooring at The Coffee Company. The treatment has created a much safer environment for our employees and guests. The ability to continue our current cleaning processes was important to us as well.

Your partnership with has provided us with a winning team to help run our business better.

I would highly recommend any business owner with tile flooring utilize Sure Step from Surfaces to decrease their liability and maximize customer service.

Thank you very much and please use us as a reference for similar owners.

Regards,

Dave
