Bud

I would like to take a moment to comment on my experience with Sure Step. From the start installation was easy to coordinate because of flexibility and being willing to work out of the range of regular business hours. Once applied there is the added bonus of a very clean appearance of flooring and grout joints and no more unsightly adhesive backed anti-skid squares everywhere. The treatment has been working well and we have had no lost time falls or injuries since the product was applied to the floors of our commercial kitchen. I will recommend your product to other facility managers and for use at the other sites in our organization.

Thanks for a Great Job!
