Regarding Application of Sure Step Bath Tub Treatment

Dear Mabel & Nick:

I would like to personally thank you both on the treatment of our bath tubs at our Motel 6 location [REDACTED]. Your work performance was very satisfactory and expectation of the ending results was great. We are very glad on having to have our bath tubs secure for anti-slip treatment that gives us a safe piece of mind on the safety of our guests. Every tub has a neat appearance that gives a look of cleanliness but also when in use with water has a feel of grip that secures one's footing while showering.

We will definitely recommend this treatment on our tubs, in order to reduce hazardous mishaps that occur during the use of the tubs and with the investment of this treatment will reduce the major cost of guest complaints and injuries. Thanks again for your continued revisits on our site to review any further use and satisfaction that was guaranteed.

Sincerely

Dan [REDACTED]
